

Join The American Chestnut Foundation

All memberships to TACF® include all TACF publications, car decal, membership to one of our state chapters as well as opportunities to participate in local chestnut activities. Visit www.acf.org for more information.

As an Annual Sponsor member you have the opportunity to test our latest line of potentially blight-resistant chestnuts, called Restoration Chestnuts 1.0. These chestnuts are for testing and evaluation only. There is no guarantee they will have adequate resistance to the chestnut blight, but by planting these seeds you become part of our science team by helping us evaluate these latest trees. Your feedback on seedling performance will be critical in helping TACF

Yes! I want to help restore the American chestnut.

Asheville, NC 28801

* Because our Legacy Tree orchard is very young, seed production is low. Supplies for sponsorship level distributions are limited. Should demand exceed seed inventory, those wishing seed will be placed at the top of the distribution list for next year. The American Chestnut Foundation (TACF) is providing these seeds for testing and evaluation purposes only. Seed distribution information and order form will be sent to you once your membership application has been processed. Seed is shipped annually each March. For more information, call (828) 281-0047 or email us at chestnut@acf.org
