

Jeanne Romero-Severson, Ph.D.

Professor of Quantitative Genetics and Genomics, Biological Sciences Department; Director, Tree Genetics Core Facility, Forest Conservation and Tree Genetics Program, University of Notre Dame

Jeanne Romero-Severson is a Professor of Quantitative Genetics and Genomics in the Biological Sciences department at the University of Notre Dame. After obtaining her Ph.D. in Plant Breeding and Plant Genetics from the University of Wisconsin at Madison in 1984, she served as a postdoctoral associate in the Entomology Department. Fourteen years and three companies later, she moved to West Lafayette to accept an appointment as an Assistant Professor in the Departments of Forestry and Agronomy at Purdue University. In 2003 she moved to the University of Notre Dame. Currently, she is a member of the Eck Institute for Global Health, Director of the Tree Genetics Core Facility, and President of the Faculty Senate.
